Ultrasonic Pest Repeller

Product specification :

Material: ABS

Power rate: 3-5w

Power source: 90 - 250v

Operating temperature: 0~40°C

Ultrasonic frequency 22 - 65khz

Effective coverage area 800 - 1200 square feet.

How It Work: Ultrasonic pest Repeller works by invisible electromagnetic waves. The ultrasonic pest Repeller is very effective in pest control and keeps pests and mice away. Quiet And Effective: Ultrasonic pest repellents work with low frequency ultrasonic waves, which are difficult for humans to hear. But it is very effective for rodents and pests,
